PRABHNOOR SINGH

Computer Science Co-op Student | Software Development

Victoria, BC | prabhnoorsingh@uvic.ca
prabhnoob.github.io | github.com/prabhnoob

EDUCATION

University of Victoria | B.Sc. Computer Science, Co-op

Expected graduation: 2028

Relevant coursework: Data Structures and Algorithms, Software Testing, Operating Systems, Database Systems, Requirements Engineering, Human-Computer Interaction

TECHNICAL SKILLS

Languages: Python, C/C++, Java, TypeScript, JavaScript, SQL

Web and data: React, HTML/CSS, Three.js, WebGL, pandas, REST APIs

Tools and testing: Git, GitHub, Linux, JUnit 5, Mockito, boundary and mutation testing

SELECTED PROJECTS

UVcraft | Interactive 3D Campus Experience

React, TypeScript, Three.js | Live demo | GitHub

- Built a browser-based 3D UVic campus with reusable scene components and navigation for desktop and mobile.
- Tuned real-time rendering and controls to keep the campus responsive across devices.

JPacman Gameplay Validation | SENG 275

Java, JUnit 5, Mockito, mutation testing

- Created 37 automated tests covering gameplay state, game rules, collisions, and edge cases.
- Used boundary, coverage, and mutation testing to isolate defects and document reproducible failures.

Patient Data Management | SENG 265

Python, C, pandas

- Built searchable patient records and clinical notes, including workflows for selecting and updating active records.
- Validated state changes through 23 end-to-end workflow scenarios covering authentication, records, and notes.

WORK EXPERIENCE

Mark's | Sales Associate

Oct 2025 - Present

- Help customers compare products and choose options that meet their needs.
- Process point-of-sale transactions, maintain inventory and merchandising standards, and coordinate store tasks with teammates.

Felicita's University Pub (UVSS) | Cook / Customer Service

Victoria, BC | Apr 2025 - Present

- Coordinate with the service team during high-volume shifts while balancing food quality, safety, timing, and customer needs.
